Gainesville Daily Sun.

VOL. XXVI, NO. 71 GAINESVILLE, FLORIDA, FRIDAY, APRIL 30, 1909 TEN CENTS A WEEK

HOUSE POSTPONES ACTION ON APPROPRIATION BILLS

Senate Voted to Sustain the Veto of Governor Broward Upon Public Printing Bill.

TALLAHASSEE, April 29.—Action on a bill providing for an appropriation sufficient to guarantee the expenses of teachers while attending summer schools, in the hope of securing a better attendance at these schools of instruction, was indefinitely postponed after an interesting debate in the House of Representatives yesterday. The bill was introduced some days ago by Mr. Carn of Marion and referred to the committee on appropriations. The committee reported without recommendation.

In explaining the purpose of his bill, Mr. Carn stated that the provisions of the measure tended to encourage the school teachers to greater hopes of achievement and thereby place the school system of the State upon a higher standard of efficiency. The small salaries received by a majority of the teachers, he said, did not enable them to attend the summer schools where the same were held at great distance from their places of residence.

Others took the view that the appropriation as proposed by the bill would prove a needless expence to the State. They thought that if the Legislature desired to appropriate a sum of money at this session for educational work it should be appropriated in a manner that would more directly benefit the school children of the State. All, however, went on record as favoring anything that tended to improve the educational advantages of Florida.

House Bill No. 45, by Mr Carn of Marion, requiring teachers' summer training schools and making appropriations for the maintenance therefor, was next taken up on the calendar under bills on second reading. Opposition was raised to the passage of this bill but a motion to indefinitely postpone it was defeated by the close vote of [illegible] The bill now goes to third reading on the enrolling calendar.

Nothing for Immigration.

Some surprise was expressed when the House voted in favor of indefinitely postponing action on a bill for an appropriation of funds for the encouragement of immigration and to pay the expenses therefor. The measure provided for an appropriation of $5,000 annually for the purpose of inducing desirable immigration to locate in the State, and the sum of $2,000 annually as salary for some competent person who should act as commissioner of immigration.

Mr. Dupont made a strong plea in behalf of the merits of his measure, but the opposition was strong and indefinite postponement carried by a large majority.

The bill is one of the most important yet introduced at this session and many of the members of the House feel that some distinct forward step in the interest of immigration should be taken before the Legislature adjourns. A substitute may therefore be introduced at an early date.

The House held its first four-hour session yesterday, meeting at 9 a. m. and adjourning at 1 p. m. It is believed that one four-hour session is more advantageous than several sessions of shorter duration.

Mr. Roberson of Suwannee moved to waive the rules by taking House Bill 68 from committee and placing it on calendar under head of bills on second reading. The bill provides a penalty for negligent transmission of telegrams by telegraph companies. Rules were waived by two-thirds and it comes back to the House in the position under [illegible]

THOMAS PURCHASES CHASE PROPERTY

DEAL INCLUDED ALL OF GAINESVILLE COMPANY'S HOLDINGS.

Handsome and Expensive Home to Be Completed Together With Several Other Buildings.

W. R. Thomas has purchased all of the city real estate formerly owned by the Gainesville Company, which, in fact, was the C. W. Chase interests and which were considered among the largest property holders of Gainesville.

The lots embrace the greater portion of the northeastern part of the city and were valued at something like $200,000, this of course, including the fine Chase home, which has never been fully completed.

Major Thomas was seen by the reporter and verified the deal, but had very little to say in regard to what he intended doing with such a large purchase at this time. It is known, however, that he will commence at once to have the handsome residence completed and will make this his home.

Other unfinished houses, which number about twenty, will also be completed, so it is stated, at as early a date as possible, and they will be used principally for rental purposes.

This is without doubt one of the largest real estate transfers ever made in city property in Gainesville, and the people generally are happy over the fact that it has passed into the hands of one who is progressive and has the push and energy to complete the buildings already begun.

VOL. XXVI. NO. 71 GAINESVILLE, FLORIDA, FRIDAY, APRIL 30, 1909 TEN CENTS A WEEK

HOUSE POSTPONES ACTION ON APPROPRIATION BILLS

Senate Voted to Sustain the Veto of Governor Broward Upon Public Printing Bill.

TALLAHASSEE, April 29.—Action on a bill providing for an appropriation sufficient to guarantee the expenses of teachers while attending summer schools, in the hope of securing a better attendance at these schools of instruction, was indefinitely postponed after an interesting debate in the House of Representatives yesterday. The bill was introduced some days ago by Mr. Carn of Marion and referred to the committee on appropriations. The committee reported without recommendation.

In explaining the purpose of his bill, Mr. Carn stated that the provisions of the measure tended to encourage the school teachers to greater hopes of achievement and thereby place the school system of the State upon a higher standard of efficiency. The small salaries received by a majority of the teachers, he said, did not enable them to attend the summer schools where the same were held at great distance from their places of residence.

Others took the view that the appropriation as proposed by the bill would prove a needless expense to the State. They thought that if the Legislature desired to appropriate a sum of money at this session for educational work it should be appropriated in a manner that would more directly benefit the school children of the State. All, however, went on record as favoring anything that tended to improve the educational advantages of Florida.

House Bill No. 45, by Mr. Carn of Marion, requiring teachers' summer training schools and making appropriations for the maintenance therefor, was next taken up on the calendar, under bills on second reading. Opposition was raised to the passage of this bill, but a motion to indefinitely postpone action was lost by the close vote of 30 to 29. The bill now goes to third reading, and the enrolling committee.

Nothing for Immigration.

Some surprise was occasioned when the House voted in favor of indefinitely postponing action on a bill for an appropriation of funds for the encouragement of immigration and to pay the expenses therefor. The measure provided for an appropriation of $5,000 annually for the purpose of inducing desirable immigration to locate in the State, and the sum of $2,000 annually as salary for some competent person who should act as commissioner of immigration.

Mr. Dupont made a strong plea in behalf of the merits of his measure, but the opposition was strong and indefinite postponement carried by a large majority.

The bill is one of the most important yet introduced at this session and many of the members of the House feel that some distinct forward step in the interest of immigration should be taken before the Legislature adjourns. A substitute may therefore be introduced at an early date.

The House held its first four-hour session yesterday, meeting at 9 a. m., and adjourning at 1 p. m. It is believed that one four-hour session is more advantageous than several sessions of shorter duration.

Mr. Roberson of Suwannee moved to waive the rules by taking House Bill 68 from committee and placing it on calendar under head of bills on second reading. The bill provides a penalty for negligent transmission of telegrams by telegraph companies. Rules were waived by two-thirds vote and it comes back to the House, taking position under second reading.

Senate concurrent resolution by Sloan. That "Whereas the school interests of the State are greatly embarrassed because of recent decision of the Supreme Court of State, having declared as unconstitutional the law of 1907, providing State aid for common and high schools of State; and whereas school officers of many counties relying on the State to comply with promises of the act, which they were morally and legally bound to do, borrowed money with which to pay teachers until such time as the State should be able to return the same, and whereas the teachers have not been paid and are in need of such money; Resolved, That a committee be appointed to devise some plan whereby the situation may be relieved." Passed over and retains place on calendar under head of second reading.

IN THE SENATE.

After a debate lasting over half an hour the Senate voted to sustain the veto of Gov. Broward upon the public printing bill passed by the 1907 Legislature. The vote to sustain the veto stood 16 to 11. On motion to pass the bill over the veto the vote stood:

Ayes—Broome, Buckman, Dayton, Harris, Henderson, Johnson, McCreary, McLeod, Sams, Sloan, West—11.

Nays—Hudson, Baker of Twentieth, Baker of Twenty-ninth, Crill, Cook, Cone, Cottrell, Davis, Flournoy, Girardeau, Hosford, Humphries, Leggett, McMullen, Williams, Withers—16.

Senator Harris protested against the sustaining of the veto. He spoke at length regarding conditions alleged to have been existing with regard to the State printing. He claimed that under present conditions and with the requirement of a $25,000 certified check accompanying bids for the work, the Capital City Printing Co. has practically enjoyed a monopoly, with the result that the State has and is paying more than it should for its work.

It is very certain that a new bill will be prepared, guarding against the defects pointed out by the former Governor in the old bill and that it will be easily passed.

Senator Bond's bill regulating the speeding of automobiles was passed with only three votes against it. Senator Bond said he was convinced that there was not much necessity for the bill, but that the people in the cities were clamoring for it and that the bill was not objectionable in any way.

THOMAS PURCHASES CHASE PROPERTY

DEAL INCLUDED ALL OF GAINESVILLE COMPANY'S HOLDINGS.

Handsome and Expensive Home to Be Completed Together With Several Other Buildings.

W. R. Thomas has purchased all of the city real estate formerly owned by the Gainesville Company, which, in fact, was the C. W. Chase interests and which were considered among the largest property holders of Gainesville.

The lots embrace the greater portion of the northeastern part of the city and were valued at something like $200,000, this of course, including the fine Chase home, which has never been fully completed.

Major Thomas was seen by the reporter and verified the deal, but had very little to say in regard to what he intended doing with such a large purchase at this time. It is known, however, that he will commence at once to have the handsome residence completed and will make this his home.

Other unfinished houses, which number about twenty, will also be completed, so it is stated, at as early a date as possible, and they will be used principally for rental purposes.

This is without doubt one of the largest real estate transfers ever made in city property in Gainesville, and the people generally are happy over the fact that it has passed into the hands of one who is progressive and has the push and energy to complete the buildings already begun.

TURKISH CAPITAL NOW FREE OF ABDUL HAMID

Stripped of His Power the Deposed Sultan Is Exiled in City Where Foes Began March.

CONSTANTINOPLE, April 29.—The former ruler of the empire, Abdul Hamid II, is to be kept a prisoner in a large house with walled grounds on a hight overlooking Saloniki, which has lately been occupied by the Italian commander of the itnernational gendarmerie. He is not to be put on trial, as has been widely reported in Constantinople, for he is considered to be above the law.

It was thought wise to keep the deposed Sultan in European Turkey, remote from the capital. His household will be administered for him upon a generous scale and his life will be safe-guarded, as he earnestly besought when notified of his dethronement.

Abdul Hamid, with four wives, five daughters and two of his younger sons, two eunuchs and a comparatively large number of female servants, were taken from the Yildiz palace Tuesday night and started under an escort to Soloniki. The party proceeded by steam launches to the landing near the railway and a special train on which they were to be placed left early in the morning.

Want Abdul Hamid's Money.

The Constitutionalists would like to get back part of the great sums of money that the former Sultan is supposed to have abroad, not only because the government is in need of the money, but because it is desirable that he should be deprived of the resources for another coup d'etat. Speculation places Abdul Hamid's wealth at anything between $25,000,000 and $200,000,000.

It was mentioned with pleasure at the palace of Mehmed V that the American ambassador was the first of the foreign representatives to convey his good wishes to the newly proclaimed Sultan. The Sultan sent his compliments and thanks to Mr. Leishman, expressing pleasure that the representative of the United States was the first to congratulate him.

The city was illuminated last night and general rejoicing continues. Although this was a holiday, court martials were held and several of the principals in the mutiny of the troops were condemned to death. Later they were taken outside the walls of the city and shot.

Suspected Prince Is Freed.

Prince Sabah Eddine, the nephew of the Sultan who was arrested on suspicion of being implicated in the rising, has been liberated and his release has caused a good impression.

The streets of the capital are filled with Macedonian volunteers. They are being feasted by citizens at the coffee house restaurants, which are all full to overflowing.

ing standard of cottonseed meal and prohibiting misbranding, was taken up as a special order.

Upon motion of Mr. Henderson the rules were waived and the bill was read a third time and passed by a vote of 24 to 2.

Mr. Morton Resigns.

J. H. Morton, who has held the position as superintendent of the Eddins Manufacturing Company, has resigned and gone to Tampa to accept a similar position with the Tampa-Havana Lumber Company, one of the largest lumber concerns in South Florida. He is a thoroughly competent man and his new employers will find him fully capable to assume all duties of his new position. His many friends and the company with whom he was connected here give him up reluctantly.

Concert Tonight.

The Gainesville Cornet Band will give an open-air concert this evening at 8 o'clock at the band stand, to which the public is cordially invited to attend. The boys have improved considerably lately and their appearance will be a source of pleasure for the citizens.

Strung Up to Tree in Which He Sought Refuge

BARTOW, April 29.—Strung up to a tree in which he sought refuge and his body riddled with bullets, Charles Scarborough, a negro, who Tuesday attempted to assault Mrs. Taylor Frierson of Fort Myers, met a speedy death at the hands of a posse of infuriated men.

The posse started out with blood hounds on the negro's trail soon after the crime became known and scoured the woods all night.

In a secluded spot the posse captured the negro yesterday, finding him in the top of a tree which a few minutes later served as his scaffold. The negro confessed and without delay a rope was put around his neck and he was drawn up to a limb. The posse then stood off and fired twenty shots into his body.

Beach Hargis Gets Life Term for Slaying Father

IRVINE, Ky., April 29.—Beach Hargis, charged with the murder of his father, Judge James Hargis, was yesterday sentenced to life imprisonment.

The defendant showed no emotion when the verdict was rendered. Neither did his mother and sister, by whom he sat. This was the second trial of Hargis for this crime. The first resulted in a mistrial. United States Senator W. O. Bradley headed the counsel for the defense in both trials.

The killing of Judge Hargis by his son Beach occurred in the judge's store at Jackson, Breathitt county, on Feb. 6, 1908.

Senator Bradley, for the defense, entered a motion for a new trial, which will be heard by Judge Adams today.

REV. SWEET EXPLAINS ADVENTIST DOCTRINE

REQUESTS PEOPLE OF ALL DENOMINATIONS TO ATTEND.

Revival Meetings Now in Progress Are Attracting Large Congregations and Many Deeply Interested.

(Contributed.)

In his sermon in the Adventist church last night, Rev. C. H. Sweet of Dowling Park treated his subject in an interesting manner, using for a text the words of St. Paul in Acts 24:14, "But this I confess unto thee, that after the manner which they call heresy, so worship I the God of my fathers, believing all things which are written in the law and in the prophets."

Mr. Sweet said in part:

"Looking out into Christendom today we see it divided into sects, each sect being characterized by some doctrinal view or form of church government. Every one of these sects on coming into existence has pressed through an experience of persecution. They have been subjected to the criticism, misunderstanding and denunciation of preexisting religious bodies. This has been true of the Adventist Church. Of the silly, idiotic things that have been said about them, I will not speak. But their doctrinal views have been misunderstood. Many, even now, regard them as a fanatical sect, as dangerous teachers. People judge us by what they have heard, or have imagined about us, instead of listening to our own confession of faith, and basing their opinion upon that.

"Now, we ask the privilege of stating in a kind way some of our fundamental views. Consider what we have to say, and if you find that our views are dangerous to good citizenship, or to one's spirituality and usefulness as a Christian, then reject us in the name of the Lord. But if you find us holding great truths that lie at the foundation of sound Christian faith, truths that are an incentive to repentance and to godly living, then cease to be afraid of us, and co-operate with us in our special efforts to save souls, even if you cannot accept our doctrinal views.

"Upon the general doctrines of the gospel we agree with other evangelical denominations. The principal point of difference between us and other denominations is that we stand a unit upon certain points of Christian doctrine upon which other Protestant denominations are divided, the most important of which are:

"1. We believe in the whole of the Bible and in its literal interpretation.

"Others believe the Bible to be inspired in spots, and interpret what they do accept figuratively, as a rule.

"Now, by literal interpretation, we mean this: that the plain verbal sense of the passage is to be taken as its true sense, except where the words and the context shows clearly that the language is figurative or symbolic. We believe that a departure from this literal rule of interpretation is one of the leading causes of the divisions of Christendom.

"2. We believe that Life and Immortality comes to man through Jesus Christ alone, at His second coming, when He shall raise the dead and translate the living saints, as described in I Cor. 15:51-58, and other Scripture passages.

"We believe that there is no life whatever in death, that if a dead man ever lives again his future life, as well as future freedom from all power of death, must depend upon Him who has the power to 'swallow up death in victory.'

"3. We believe that the judgment of the great day is impending—that Christ's second personal coming is 'nigh at hand even at the doors.'

"We believe that the last jots and tittles of consecutive prophecy are now being fulfilled, that the characteristic of 'the time of the end,' as given in Daniel's prophecy, are all about us, that the work given the Church to do previous to Christ's return is receiving its last strokes, that religious people now present the very picture St. Paul told Timothy they would present in the last days, that the days of Noah's time which Christ said would be like the days of His appearing, are really our days."

Mr. Sweet enlarged upon all these divisions of his subject, quoting many Scripture passages in support of his assertions, and then concluded as follows:

"We believe in waiting and watching for the things of which we have spoken, at the same time praying that men may be brought to repentance. We think these fundamental principles are important Bible truths and that they ought to be preached everywhere in connection with other Bible truths, for we believe in preaching a whole gospel.

"We do not believe that Adventists alone will be saved. We know that all who love God and work righteousness will be received by Him. St. Paul says there is a crown for all 'that love His appearing,' as, in other words, all who so love Jesus that they desire to 'see Him as He is and to be made like Him.' We are not exclusionists, but welcome all Christians; we love all who love our Lord Jesus Christ, and we are ever ready to co-operate with Christians of other denominations when we can do so without compromising any Bible truth. We have no creed but the Bible and Christian character is our only test of Christian fellowship."

Mr. Sweet's subject tonight will be "Signs of the Times." Those who have listened to him do not need to be urged to come again, but to those who have not heard him we would say, come for one service at least. You cannot fail to be benefited.

THE ESQUIMO

eats blubber. The lumbermen eat pork. The Norwegian fishermen live on cod liver oil. These people are constantly exposed to cold and physical strain. Experience has taught them that fatty foods give warmth and nourishment.

For those who have cold and thin bodies, or are threatened with consumption or any wasting disease, there is no fat in so digestible and palatable a form as

MAKES FINE SHOWING.

First National Bank Makes Tremendous Increase in Deposits.

No city in the State can boast of better banking facilities than are afforded in Gainesville, neither can the same number of institutions be shown in places of twice its size.

In the matter of buildings and fixtures, Gainesville is ahead of all of them, and that the people have the faith necessary in building strong institutions is better evidenced by the showing made by the First National Bank in their statement which appears elsewhere in today's paper.

This banking house now has resources to the amount of $894,734.68, an increase over their February report of $82,003.22, and the individual deposits amount to $491,982.13, an increase of over one hundred thousand dollars.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in old age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys, and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints causing rheumatism. J. W. McCollum & Co.

Harrold Makes Improvement.

J. G. Harrold, the enterprising butcher of the "south side," has made another improvement in his meat market by installing two of the very latest meat blocks, which will add to the convenience and at the same time improve his service. They are made from maple, 36 inches wide by six feet long, and are used as counters and blocks combined.

CLOSING EXERCISES WALDO HIGH SCHOOL

AWARDING OF DIPLOMA BY SUPERINTENDENT KELLEY.

Exercises Will Begin on Sunday and Last for Period of Four Days.

The Waldo High School, one of the largest of the county, will close for the term this week and the commencement exercises will begin at that place on Sunday.

The Sun is in receipt of the program but owing to its length we are unable to give same in full, the exercises commencing on Sunday and lasting for four days.

The baccalaureate sermon will be delivered by Rev. S. B. Rogers of this city Sunday morning at 11 o'clock.

Monday, commencing at 8 p. m., the primary department will render a well-arranged program in which some twenty-four of the pupils will take part.

Tuesday evening at 8 o'clock the High School department will have their exercises, which will consist of the usual recitations, speech-making, and music, and will be closed with a one-act play entitled "Chronothanatoletron," in which fifteen of the young ladies are to take part.

Wednesday the graduation exercises will occur. The program has been carefully arranged, including an address by Capt. Geo. M. Lynch and the presentation of diploma by County Superintendent Kelley.

CAN'T LOSE HAIR

Twenty Years From Today a Bald-Headed Man Will Be an Unusual Sight.

One of the most prominent druggists of America made a statement a few weeks ago which has caused a great deal of discussion among scientists in the medical press.

He said: "If the new hair grower, Parisian Sage, increases its sales as it has during the past year, it will be used by nearly every man, woman and child in America within eight years.

"And when Parisian Sage is used almost universally, dandruff will disappear and with its departure baldness, itching scalp, splitting hair and all scalp diseases will follow and twenty years from now a baldhead will be a rarity."

There is only one way to cure dandruff and that is to kill the germs. There is only one hair preparation that will kill the germs, and that is Parisian Sage.

This unusual hair restorer with its record of thousands of cures will grow hair on any head where there is any life left; it is guaranteed by W. M. Johnson to cure dandruff, stop falling hair and itching of the scalp in two weeks, or money back.

It is the most pleasant and invigorating tonic, is not sticky or greasy and is used extensively for ladies of refinement, who desire to have and to keep their hair soft, lustrous and luxuriant.

Only 50 cents for a large bottle at W. M. Johnson's and leading druggists everywhere, and remember when you buy a bottle of Parisian Sage you get more for 50 cents than the makers of ordinary tonics give you.

The habit of answering ads. that appeal to you is one that will keep you interested in the life you are living, and prosperous.

Mr. F. G. Fritts, Oneonta, N. Y. writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. J. W. McCollum & Co.

All Run Down? Pale? Nervous?

All run down, easily tired, thin, pale, nervous? And do not know what to take? Then go direct to your doctor. Ask his opinion of Ayer's non-alcoholic Sarsaparilla. No alcohol, no stimulation. A blood purifier, a nerve tonic, a strong alterative, an aid to digestion. Let your doctor decide.

THE NEW SCHEDULE HAS BEEN ARRANGED

TRAIN WILL RUN FROM OCALA TO JACKSONVILLE DAILY.

Will Prove Great Convenience for the Traveling Public and Aid the Local Travel.

All arrangements have been completed for the inauguration of the new train service between Ocala and Jacksonville via Gainesville.

The news of this new service is hailed with delight by the general public and a great deal of favorable comment has been heard regarding the trains, but it is the opinion of some that the schedule is entirely too long and should be shortened up an hour or more between the two main points.

Taking, for instance, two hours from Gainesville to Ocala, or on the other hand, three hours and thirty minutes from Jacksonville to this city, is rather a tiresome ride and could be shortened and at the same time handle the local work.

With the above changes there is little doubt but that the train will be a paying proposition from the very beginning, and it is to be hoped that the railroad officials will be enabled to make these necessary changes.

Following is the schedule, the trains to be known as Nos. 9 and 10:

3:30 p.	Lv. Jacksonville	Ar.	11:30 a.
4:21 p.	Ar. Baldwin	Lv.	10:44 a.
5:44 p.	Ar. Lake Butler	Lv.	9:22 a.
6:25 p.	Ar. Burnetts Lake	Lv.	8:35 a.
7:03 p.	Ar. Gainesville	Lv.	7:50 a.
7:30 p.	Ar. Rochelle	Lv.	7:27 a.
7:46 p.	Ar. Micanopy Junc.	Lv.	7:12 a.
8:00 p.	Ar. McIntosh	Lv.	6:58 a.
9:00 p.	Ar. Ocala	Lv.	6:00 a.

During the spring everyone would be benefited by taking Foley's Kidney Remedy. It furnishes a needed tonic to the kidneys after the extra strain of winter, and it purifies the blood to eleminate the impurities from it. Foley's Kidney Remedy imparts new life and vigor. Pleasant to take. J. W. McCollum & Co.

HEAVY VOTE RECEIVED IN CONTEST THURSDAY

SEVERAL NICE JUMPS MADE BY CONTESTANTS YESTERDAY.

Western Section Is Proving the Most Aggressive, But the East Is Coming Fast.

The work being done in the Co-Operative Contest is interesting, not only to the large number of contestants but to the merchants who are members of the organization.

Each day the vote is heavier and from a perusal of the list it can be seen that the country precincts are taking fully as much interest as the city, and some extra large votes are being polled. There are three extra large concerns in the race, the Eddins Company, the Standard Fertilizer Company and Crawford & Davis, and sales from these places amount to a nice sum. Besides these concerns there are still other large ones, but the vote that will come from them is something that would be well for the candidates to note.

Following is the result of the count yesterday:

Gainesville—Central Section.

Miss Jessie Evans	78,645
Miss Nell DaCosta	71,945
Miss Bessie Carver	22,215
Miss Marguerite Ledbetter	20,490
Miss Estelle Beal	20,425
Miss Gertrude Harrod	13,215
Miss Helen Holder	10,165
Miss Kate Daughtrey	9,220

Women Are Creatures of Habit

Many a woman is today using lard because she has done so year after year and her mother used it before her. If she only knew that in *Cottolene* she would find a shortening pure and without the taint of hog fat, a shortening more digestible and healthful than lard, a product more economical and satisfactory than lard in every way, wouldn't she be a bit stubborn if she didn't try?

When American spelling is revised, L-A-R-D will be spelled I-N-D-I-G-E-S-T-I-O-N, not for a saving of time, but, rather of stomachs.

Cottolene is not a substitute for lard, but a pure vegetable product that is far superior to it.

COTTOLENE is Guaranteed Your grocer is hereby authorized to refund your money in case you are not pleased, after having given *Cottolene* a fair test.

Never Sold in Bulk *Cottolene* is packed in pails with an air-tight top to keep it clean, fresh and wholesome, and prevent it from catching dust and absorbing disagreeable odors, such as fish, oil, etc.

Cook Book Free For a 2c stamp to pay postage, we will mail you our new "PURE FOOD COOK BOOK" edited and compiled by Mrs. Mary J. Lincoln, the famous Food Expert, and containing nearly 300 valuable recipes.

Made only by THE N. K. FAIRBANK COMPANY, Chicago

"Nature's Gift from the Sunny South"

Eminent Authorities Say

That out-door exercise is needed by the American people. That's all very well, but how can people with rheumatism follow that advice? The answer is very simple—use Ballard's Snow Liniment and the rheumatism will go leaving you as spry as a colt. Gives quick and permanent relief from rheumatism, neuralgia, lame back. Sold by W. M. Johnson.

Large Mortgages Recorded.

There was filed for record in the clerk's office Thursday a deed from the Tyler Lumber Company transferring all of their property in this county to the New York and Florida Land Improvement Company; also another paper, a mortgage which was made in favor of the Knickerbocker Trust Company from the New York and Florida Lumber Company, the consideration being $727,000.

AMUSEMENTS

At the New Baird Tonight.

Millar's Diorama at the Baird Theatre this evening is something that everybody should see. The entertainment is divided into three parts. The first part consists of the first edition of the Diorama, in which many surprising and beautiful mechanical effects are produced, and many of a decidedly startling nature. This part concludes with a fairyland transformation—the Grotto of Calypso a magnificent specimen of mechanical work. The second number brings on Millar and Collins in their comedy sketch. May Collins appears as a burlesque prima donna. William Millar has some witty sayings and droll antics that cause much laughter. May Collins then appears as the animated German girl, a quaint and picturesque character, in which she introduces a real Dutch wooden shoe dance. William Millar appears as Sandy MacTavish, the Scotch highlander, and sings "When Highland Mary Dressed the Bonniest Thing." He is joined by [illegible] and sings "Annie Laurie." The third number consists of the second edition of Millar Brothers' novelty. Visions of art are introduced, the European continent is depicted and attractive spectacular effects are given. Taken as a whole this attraction is really worth while. The scale of prices, 15 and 25 cents, and reserved seats 35 cents, allows everyone to attend. The seats are now on sale at Miller & Vidal's. The Millar Brothers attraction is not a moving picture show, but a novelty, and it has never been witnessed here.

As advertising finds the best market for everything else, why not for your personal services?

WILLIAM MILLAR
Noted Eccentric Comedian Who Will Appear at the New Baird Theatre Tonight.

THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for $5 a year; $2.50 six months; $1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight page, forty column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for $1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

There is many a free trader who refuses to let his right hand know what his left hand is doing in tariff affairs.

"Going to work," a painting by Millet, has just sold for $50,000. It would be worth a good deal to get a picture of some men going to work.

When we allow opportunities of doing good to others to pass unimproved the loss is as much ours as theirs, and probably more so in the majority of cases.

Late reports from smuggling headquarters indicate that a little more activity upon the part of New York customs officials would materially reduce the deficit.

"Uncle Joe" Cannon has apparently come to the conclusion that it is possible to fool a majority of the people of this country all the time. How different he is from Lincoln.

There's evidently money in the newspaper business on the East Coast. Listen to this from The Miami Metropolis: "The Metropolis is the only newspaper in the South, we dare say, that enjoys the distinction of employing a linotype operator who travels to and from business in his own automobile."

Farmers bestow names upon their cattle, horses and dogs, but usually the farm itself is nameless or, if it possesses one, it is likely a nickname or one that conveys no real meaning. By all means let the farm have a name that will give it individuality, appeal to sentiment and foster a legitimate pride in the farm home. It must indeed be a poor farm for which, out of the realm of historic associations, natural features or location, some appropriate name cannot be found. Far more than most people suppose such a name brings increased affection for the farm home and corresponding contentment with rural life. Other things being equal the farm with a name is more likely to be kept in better order and made more attractive than the farm that is nameless, and this is still further the case when the family stationery bears the farm name.

Some American multi-millionaires give vast sums of money to benevolent and charitable institutions, and usually the money is accepted with profuse thanks and with glowing tributes to the generosity of the donors. We do not question that the giving of this money does a certain good, but there is a rapidly growing conviction that the amassing of collosal fortunes, making such gifts possible, is not for the best interest of the nation. If better wages were given to workmen and better provision made for safeguarding them from accident, dividends would be smaller and less money would be available for charity. But then there would be less need of charity for thousands of families who now endure semi-starvation would have a comfortable living, and the smaller list of injuries and deaths would mean greater happiness. Human life and contentment and comfort are of infinitely more value than swollen dividends and a fictitious generosity.

DRASTIC LEGISLATION.

The Tallahassee News admonishes the Legislature to proceed cautiously in passing measures that are calculated to keep capital out of the State and injure enterprises already established.

"The last Legislature," says The News, "passed a law taxing railroad companies so much per mile. There was no serious opposition to this, those on whom it was imposed seeming to think there was an element of justice in it, and there was no desire to go into the courts to delay the payment of the tax.

"The telegraph lines, as well as the telephones, also come in now for a share of drastic legislation. A great many of the latter are owned by private individuals in Florida, and while striking at the outsider, we may injure our own home people. Care should be exercised along this line, so as at least not to hurt the home capital.

"Then the matter of fixing proper rates for electric lines. There is now in contemplation the using of the Suwannee Shoals in Columbia county for furnishing light and power to a large section of country. If the promoters carry out to completion the scheme they have in view, railroad rates and lighting charges for a radius of 150 miles around Lake City will be cheaper than anywhere else in the country. Its effect will be to reduce the charges of a number of corporations by competition. This company, recently incorporated under Florida laws, is now having investigation made by capitalists, and if legislation too severe is had, it may postpone and make more difficult the sale of the bonds for the enterprise.

"We do not believe that it is the desire of the members of either house to pass any legislation that will interfere with the bringing in of new capital for investment. The Morning News has been permitted to see letter from all over the country asking about investments in Florida. We believe that the State is on the eve of the greatest prosperity in its history. In view of this, then, it would seem to be the part of wisdom to go slow."

SENATOR HUDSON'S BILL.

Senate Bill No. 225, introduced by Senator F. M. Hudson of Dade county, is similar to a law which has been in operation in California for many years, and it is said that the success of that State in fruit-growing is due in a large measure to the fact that such a law is enforced.

The measure is entitled "An Act to protect and promote the fruit-growing and horticultural interests of the State of Florida; to exterminate crop pests and to provide for the appointment of county inspectors," being modeled after California and Colorado county laws authorizing the appointment of county inspectors, and, it is claimed, if the bill becomes a law and is enforced, would be productive of great benefits to the Florida fruit-growers. It seems advisable to pass such a law as Florida has great possibilities as a fruit-producing State and the orange and peach industries should have some intelligent supervision. The Government entomologists say that "Florida is the dumping ground of the other States owing to the lack of quarantine and inspection laws."

The Florida Fruit and Vegetable Shippers' Protective Association sanction the passage of the bill and urges those interested in the Florida fruit industry to write their representatives at Tallahassee to support it.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Sold by druggists, 75c.
Take Hall's Family Pills for constipation.

CURRENT COMMENT.

The New Orleans Picayune says: "The Republic of Liberia was started by negro colonists from the United States as an experiment, which, it was hoped, would prove so successful as to cause quite an exodus of the colored race from this country for a return to native Africa. The experiment, as such, has proven a complete failure, both in the gradual decay of the little republic and likewise as a means of inducing the negroes to return whence they originally came."

The Hartford Times (Dem.) says: "Mr. Bryan says at Kansas City: 'I hope my party will not find it necessary to call for me as a Presidential candidate in the next campaign,' but he hastens to add that he has no intention of retiring from politics. He is in some respects like James G. Blaine, a man who made devoted friends and never retired from politics, but he is unlike him in having already been nominated three times for President. He has not gained enough over his original vote to warrant the expectation that he will be drafted for service in the next campaign if he really prefers to stay out."

We heard an Ocala lady say that as much as she would like to see monuments erected she hopes that the Legislature will refrain from making any appropriations looking to this end if the pension of the Confederate soldier is to be cut off.—Ocala Banner.

Nevada, in refusing to succeed South Dakota as the divorce mecca, hits trial marriage a cruel blow.

Wise European powers will proceed to secrete their railroads during Mr. Harriman's visit.

A Baby Show in Gainesville

Would have many contestants; but it's safe to say that the healthiest baby would win the prize. No baby can be healthy who suffers from worms, and most babies do unless they are kept free from them with White's Cream Vermifuge. Acts quickly, yet mildly—is its own purgative. Mothers, don't attempt to raise children without White's Cream Vermifuge. Price 25 cents. Sold by W. M. Johnson.

JUDGE MASON WILL STOP WIFE-BEATING

JOE BAKER GIVEN FOUR MONTHS FOR VICIOUS PRACTICE.

His Little Step-Daughter Interfered and the Brute Like ise Mistreated the Child.

Joe Baker, a big burly negro who has been in the habit of beating his wife and little child on various occasions, was arraigned before Judge Mason Thursday morning upon a charge of wife-beating.

Baker, as was his custom, was beating his wife over the head with a beer bottle when his little step-daughter pleaded with him in her mother's behalf and the enraged man at once released the wife and went after the child.

A large number of witnesses, both white and colored, were present to testify in the case and the evidence submitted, together with the many bruises upon the complainants, was sufficient for the jury to bring in a verdict of guilty.

In sentencing the man, Judge Mason remarked that he would endeavor to stop this practice among the colored people and gave the man four months in the gang and a fine of $25, in default of payment of which he will have to do time for with Rawls & Co.

Numerous complaints have been made to Judge Mason along this line, but he has refrained from taking active steps in the matter, as the negro population in general will make complaints and then try to compromise a matter after it has been put into the courts. However, all future complaints will be investigated and the proper course pursued.

Another case to be heard was that of Friday Williams, who was charged with the ill-treatment of his little six-year-old son. The evidence was insufficient and the negro was released, with a reprimand that he should not cause such complaint to again be made against him.

If you have backache and urinary troubles you should take Foley's Kidney Remedy to strengthen and build up the kidneys so they will act properly, as a serious kidney trouble may develop. J. W. McCollum & Co.

NATURE TELLS YOU

As Many a Gainesville Reader Knows Two Well.

When the kidneys are sick,
Nature tells you all about it.
The urine is nature's calendar.
Infrequent or too frequent action;
Any urinary trouble tells of kidney ills.

Doan's Kidney Pills cure all kidney ills.

People in this vicinity testify to this.

Jos. Eckert, Thompson street, Starke, Fla., says: "I am very glad to recommend Doan's Kidney Pills as they proved of great benefit to me. The passages of the kidney secretions were irregular and when the secretions were allowed to stand they deposited a sediment. My back ached intensely and was very lame and sore, making it hard for me to stoop or lift. I could not rest well and mornings upon arising I was tired and worn out. I at length heard of Doan's Kidney Pills and deciding to give them a trial, I procured a box. This remedy effected a complete cure. The backaches and the lameness disappeared and my kidneys became normal."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

MICANOPY NOTES.

MICANOPY, April 27.—William Gill and wife of Baltimore visited Mr. C. E. Melton for a few days last week.

Miss Susie Simpson of Gainesville spent a few days with her brother, H. H. Simpson, of this place recently.

Dr. M. Edwin Schlater shipped his first cucumbers Saturday. He will ship quite a lot this week.

Mrs. F. A. Holtzhausen and her daughter, Miss Helen, left for New York Friday. From there Mrs. Holtzhausen will go to London to visit relatives for a while.

N. W. Coleman has moved his livery stable to the Carter stand.

Mrs. Nellie Johnson has moved into the Marshall house on Seminary street.

W. R. Abstein is at work on his dwelling near the Tuscawilla Hotel.

The public school will close in four weeks.

Rev. T. H. Sistrunk filled his regular appointment at the Methodist church yesterday.

B. O. Franklin has bought a lot from O. L. Feaster near the public school building.

Mr. and Mrs. O. E. Baynard were in town Saturday.

J. W. Carter has built another barn on his lot near Coleman's livery stable.

John V. Denton of Sanford was in town Saturday.

H. L. Merry will go to Dunnellon soon to engage in the mercantile business.

J. P. O'Dell has returned home after having spent several weeks down on the East Coast.

C. W. Slaughter went to Gainesville on a business trip Saturday.

Mrs. C. M. Smith and daughter, Miss Hassie, of Waeahoota, visited Mrs. E. C. Chitty Saturday.

V. P. Smith and mother, Mrs. J. Porter Smith, spent yesterday with J. J. Barr.

A. L. Brost paid Ocala a visit Saturday.

Dr. H. L. Montgomery visited Gainesville Friday.

There is talk of a basket factory being built here this summer.

Killed a Big Black Bear.

J. G. Winningham, who with J. H. Dean has a hog ranch on the Burns place in Gulf Hammock, had the exciting experience Sunday evening of killing a monster black bear.

Bruin came in about sundown and was getting a hog for supper when Mr. Winningham quickly put an end to the bold marauder.

Mr. Winningham brought the dead carcass to Bronson where it was viewed by scores of curious people.—Bronson Times-Democrat.

Hicks' CAPUDINE Cures Sick Headache

Also Nervous Headache, Travelers' Headache and aches from Grip, Stomach Troubles or Female troubles. Try Capudine—it's liquid—effects immediately. Sold by druggists.

IN WATER FOUR HOURS.

Thrilling Experience of Melrose People on Lake Santa Fe.

MELROSE, April 28.—Rev. S. Rahn of Jacksonville was in town for several days last week in the interest of the Georgia Synod of the Lutheran Church in regards to the board property which was donated to the Synod as a home for aged clergymen. On Rev. Rahn's report depends the future state of the home.

It will be good news to our citizens to hear that Eddy Bros. of Green Cove Springs have the contract to paint the school building. The inside is also to be repaired.

Quite a crowd was present at the foot of quail street on Sunday morning to witness the baptising of two new members by Rev. B. R. Moseley.

The tax books of the town of Melrose will close on May 31st. All property not paid for will be sold for taxes one month later.

"Lady," the fine setter of S. Coward, presented him with six fine puppies on Sunday. Both father and mother are of excellent stock and no doubt there will be many applicants for the puppies when old enough to sell.

Miss C. McRae and Miss S. Mullin have returned from Jacksonville, where they attended the meeting of the Grand Chapter, O. E. Star. They report a most hospitable reception and profitable experience in the working of the order.

F. M. Yearwood and a Mr. Perkins had quite an exciting and unpleasant experience on Lake Santa Fe on last Saturday afternoon. They were going across in a sailboat when a squall tipped the boat over. Both of them held on to the keel of the boat and finally, after over four hours in the water, they drifted ashore near Earleton, near dead and numb from the cold water. Mr. Perkins lost $26 while in the lake. Two of the motor launches were out, but did not see the shipwreck.

Will Put on Motor Cars.

The Seaboard has laid off every other section foreman between Waldo and Cedar Key and the length of the sections is doubled. In order to cover the increased territory section foremen will be supplied with motor cars.

Some good men are thrown out of a job by the new order, but we fail to see where it will be a money-saver for the road or insure a better roadbed.—Bronson Times-Democrat.

CATARRH MICROBES

A Dead Microbe Is the Best Microbe. Hyomei Kills Them All.

Hyomei (pronounced High-o-me) is a killer of catarrh germs, because when you breathe it in, its antiseptic and germicide properties reach every nook and crevice of the mucous membrane from the mouth and nose deep into the lungs.

Hyomei brings the Australian forests of pine and eucalyptus to your home. It is made of the active principles extracted from these trees.

No one who lives in or near these forests suffers from catarrh. No one who breathes in Hyomei, the real forest air of Australia will have catarrh for long after the treatment starts.

If you want to cure catarrh, croup, bronchitis, coughs, colds, asthma, hay fever, or relieve consumption, try Hyomei, the common-sense cure, the cure that reaches the spot.

A complete Hyomei outfit, including a hard rubber inhaler, costs only $1.00, and extra bottles of Hyomei, if afterwards needed, cost but 50 cents. Guaranteed to cure, or money back. Sold by leading druggists everywhere; sold and guaranteed in Gainesville by J. W. McCollum & Co.

MI-O-NA
Cures Indigestion

It relieves stomach misery, sour stomach, belching, and cures all stomach disease or money back. Large box of tablets 50 cents. Druggists in all towns.

AN ESCAPED CONVICT IS LOCATED IN JAIL

OCALA, April 28.—Will Robinson, colored, sentenced in this county on March 11, 1904, for a term of twenty years, and who escaped from the Ellis-Rawls Company at St.Petersburg October 11, 1907, was located a few days ago in the jail at Dade City by A. J. Brigance of the S. A. Rawls Company.

The specific charge against the prisoner, who is a dangerous character, and who on several occasions has been implicated in shooting scrapes, was assault on Deputy Sheriff Smith, who at that time was in charge of the county jail.

The Dade City authorities are holding Robinson on a petty charge and when released by them he will be taken back to the Rawls Company to finish out his term of imprisonment.

A Knocker

Is a man who can't see good in any person or thing. It's a habit caused by a disordered liver. If you find that you are beginning to see things through blue spectacles, treat your liver to a good clean cut process with Ballard's Herbine. THE WHITEFLY IN APRIL

By E. W. BERGER

Florida Agricultural Experiment Station

Introducing Fungus Early.

The earliest opportunity in the year to introduce the fungus diseases of the whitefly larvae by the spore-spraying method will be about two to four weeks after the adult whiteflies of the spring brood have disappeared. In about ten days to two or three weeks after this, the eggs they have laid will have nearly all hatched, and the young larvae will be abundant beneath the leaves. This spring brood of adults generally emerges in March or early in April, so that the first brood of young larvae will be on the leaves at some time in April. To wait, before introducing fungus, until the whitefly larvae have advanced into the fourth or fifth stages, may result in partial failure, since these older larvae appear to be much more resistant to fungus diseases than the younger ones.

Arrangements in regard to supplies of fungus should be made early. For since much of the previous summer's crop of fungus either becomes badly weathered or peels off during the winter, and very little or no new fungus develops during that time, it may be difficult to get large quantities readily. (For methods of introducing fungus see Bul. 97.)

In groves in which fungus has only spread slightly, as diligent an effort should be made to spread it as in groves not having any fungus at all. While the natural agencies will no doubt gradually disseminate it after it is once there, these should not be alone depended upon; for it is quite an easy matter to spread the fungus artificially and thus aid the natural agencies. If we can get fungus started early, it has the whole summer in which to grow and spread, and will also furnish seed-fungus for use later in the season. We should not hesitate to spread fungus at any subsequent time when young larvae are again present; say during June, July or August, and even later. The more fungus we sow, the more will grow; and the more rapid will be the destruction of the whitefly.

Spraying.

It sometimes happens that the fungi cannot be applied, or that the grove needs immediate relief: in such cases it is advisable to reduce the number of whitefly by spraying with contact insecticides. While it has generally been recommended that spraying the whitefly with contact insecticides should be practiced in winter, observations made upon trees sprayed in November while most of the larvae were still immature, indicate that it may be possible to do very effective spraying at any time when the larvae are young. It would appear, therefore, that the time recommended for introducing fungus by the spore-spraying method would likewise be a good time to spray with contact insecticides. A spraying mixture of sufficient dilution to insure its being harmless to very tender foliage, would be effective in destroying these tender larvae; whereas even a strong mixture might be less effective in winter, or at any time when the larvae are well matured. It is, therefore, suggested that whenever it is found difficult or impossible to obtain fungus with which to infect the spring brood of whitefly larvae, the trees should be sprayed with some contact insecticide. This should reduce the numbers of the whitefly and allow the trees to thrive. Later in the season, when the young larvae are again abundant, the trees may be sprayed a second or a third time; or fungus may be introduced. These suggestions upon summer spraying with insecticides are also made for the benefit of those who may prefer to experiment with spraying before trying other measures. By spraying, of course, thorough spraying is meant. Whale-oil soap, as a spraying mixture, will probably be the least injurious to the fungus diseases of scales and whitefly.

Chinaberry and Umbrella Trees.

If all Chinaberry and umbrella trees in a citrus-growing community have not yet been eradicated, this should not be delayed beyond April. The reasons why these trees should be destroyed were given in these columns last February.

A State Law.

It is not generally known to citrus growers that Florida has what is practically a local option law for the protection of citrus groves and other orchards against the whitefly and other insect pests and diseases. (See Chapter XIII, Statutes of Florida, 1906). This law empowers the county commissioners to appoint a board to carry out its provisions. Any county wishing this law put into effect can have the board appointed when 40 per cent. of the fruit growers sign a petition to that effect. This board can compel the destruction of such food plants of the whitefly as Chinaberry and umbrella trees, and otherwise inaugurate repressive and quarantine measures against the whitefly.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

Southern Bell Telephone and Telegraph Company

Efficient Service. Reasonable Rates.

THE GRACEFUL ANTELOPE.

He Seems Born of Light and Nursed In the Lap of the Wind.

For me there have been no fairer days than when the antelope skimmed the plain with legs nebulous with speed on that low gentle canter whose deceptive motion left the best aimed bullet far behind. For the antelope is the only large animal that is wholly spirituelle. Graceful as he may seem when spurning the ground and swinging high over rocks and brush, to rebound like a ball at the next touch of earth, there is still something earthly about the deer. But the antelope seems born of light and nursed in the lap of the wind. All his movements show that he was meant for the air rather than the earth. Though Nature made a slight change in giving him legs instead of wings, she made no mistake, and her work has always been the wonder and love of the hunter. When troubles arise the deer takes to the harbor of the hills, but the antelope steers for the open sea. The farther the plain sweeps wide and free the more this gay rover loves its safety, and a run that to the deer would mean death is to him only a "breather" that warms him up to the race. Whether illumining the horizon like a shooting star in the clear morning air of the great plain or looming high, like a stilted ghost in the mirage of glowing midday, he is the most charming of all things that run, and his passing has left a great void that nothing can fill. The few that are left, protected as they are, give no idea of the effect produced on a lover of the open by one of the great bands of the days that were, strung out in a film almost like vapor with distance and speed, and vanishing as if in air over the land's outlying verge.—T. S. Van Dyke in Recreation.

THE NUMBER SEVEN.

It Rarely Occurs In the Science of Weights and Measures.

How would you define "seven?" The Standard Dictionary says it is "one more than six." Webster's calls it "one more than six or one less than eight." The abridged Webster says it is "five and two," and the Century's definition runs "one more than six; the sum of three and four."

In metrology—that is, the science of weights and measures—seven is comparatively rare. The seven days of the week form a striking example of its use, however.

Scholars have found, too, that the Egyptian cubit contained seven handbreadths. "Cubit" is from the Latin "cubitum," the elbow, or the distance from the elbow to the end of the middle finger. The Roman cubit was one and a half Roman feet or 17.4 English inches, but the royal Egyptian cubit, used in the building of the pyramids of Gizeh, perhaps 3500 B. C., has been learned from measuring sticks found in the tombs to have been 20.61 English inches. The ordinary cubit was divided into six palms or handbreadths, and the use of seven in the Egyptian cubit is ascribed by some investigators to a probable custom of placing the hand behind the elbow when measuring along walls with the forearm and leaving it on the wall until the arm was laid down again. It should be added that there are many other cubits of widely different values, both ancient and modern.—Rochester Democrat and Chronicle.

Rough on the Architect.

"When I got the order to design a big wholesale house for a firm that has stores in five cities besides New York naturally I was elated," said an architect. "'I'll plan a building that is bound to be satisfactory,' I said to myself, 'and then they will give me the commission for those new stores they expect to put up in those other five cities.'

"Well, I did turn out a splendid store—a store that was admired by everybody in the wholesale trade. My patrons were pleased, too, but instead of giving me an order for those other buildings they simply used the same plans over and over again and built all their houses alike. That's what I call playing a low-down trick on a fellow."—New York Globe.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "own make" or other substitutes. The genuine contains no harmful drugs and is in a yellow package. J. W. McCollum & Co.

If it's printed stationery you want, The Sun office is the place to get it.
